

I am writing to object to the order from Sinclair Broadcasting requiring their stations to pre-empt regular programming and run an anti-Kerry documentary just before the election. This is an outrageous abuse of the public airwaves and a potent example of the dangers of allowing ever-increasing media consolidation. Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Their actions in this matter show a complete contempt for this obligation. The FCC should intervene to stop this abuse if possible, or at least publicly censor Sinclair if the commission lacks the legal authority to intervene.

Thank you.
